

Azure: get resources	OS disk read rate	OS disk max burst IOPS	OS disk write rate	Outbound flows
Azure: get errors	Outbound flows max creation rate	OS disk queue depth	OS disk write operations/sec	Inbound flows
Microsoft SQL databases discovery	Available memory	OS disk read operations/sec	Premium data disk cache read hit	Availability state
MySQL servers discovery	Network in total	Inbound flows max creation rate	Premium data disk cache read miss	Data disk read rate
PostgreSQL servers discovery	Network out total	OS disk target bandwidth	Premium OS disk cache read hit	VM cached bandwidth consumed percentage
Virtual machines discovery	OS disk bandwidth consumed percentage	OS disk target IOPS	Premium OS disk cache read miss	VM cached IOPS consumed percentage
Availability status detailed	OS disk IOPS consumed percentage	OS disk used burst BPS credits percentage	VM uncached bandwidth consumed percentage	CPU credits consumed

CPU credits remaining	Data disk read operations/sec	Data disk write operations/sec
Percentage CPU	Disk write operations/sec	Get errors
Data disk bandwidth consumed percentage	Data disk target bandwidth	Disk read rate
Data disk IOPS consumed percentage	Data disk target IOPS	Disk read operations/sec
Data disk max burst bandwidth	Data disk used burst BPS credits percentage	Disk write rate
Data disk max burst IOPS	Data disk used burst IO credits percentage	VM uncached IOPS consumed percentage
Data disk queue depth	Data disk write rate
